Math 1920 (Calculus II, section 5)  
MWF 12:20–1:15; T 12:00-12:55  
Bruner Hall, Room 306  
Spring 2007

Jeff Norden
Office: BR332, phone: x3592, e-mail: jnorden
Hours: MF 2:30–3:30pm, W 11am-noon,  
and by appointment

We will cover chapters 6–8, 11, 10, and some of chapter 9 of “Calculus—early transcendentals” by James Stewart (fifth edition).

There will be three in-class exams during the semester, and a final exam at the end. The exams are scheduled for the following dates:

Exam #1: Tuesday, February 13
Exam #2: Tuesday, March 20
Exam #3: Tuesday, April 17
Final Exam: Wednesday, May 2, 3:30–5:30pm

In addition, there will be in class quizzes and a few computer projects to be done using Maple. The quizzes and projects will be announced in advance.

Your grade will be computed as follows:

Three in-class exams = 45% of your grade
Quizzes and projects = 20% of your grade
Final exam = 35% of your grade

If you must miss a quiz or exam for some pressing reason, be sure to talk to me beforehand.

Your numerical average will be converted to a letter grade using a standard scale: “A” for 90% and above; “B” for at least 80% but less than 90%; “C” for ≥ 70% and < 80%; “D” for ≥ 60% and < 70%; and “F” for below 60%.

Extra Credit: I may give a few extra-credit problems. They are mostly for your own enjoyment. Extra credits are totaled separately, and will not effect your class average. If your final average falls near a borderline and you have some extra credit, then you will get the higher grade.

Students with a disability should be aware that the Office of Disability Services is available for their assistance. The office is located in room 112 of the University Center. The phone number is 372-6119.
